SUBJECT: **UST Closure Report**  
**No Further Action Required:**  
Former Gulf Station  
South Main Street  
Wadley, Jefferson County, GA  
Facility ID: 10001628\*1

Dear Mr. and Mrs. Edwards:

The Georgia Underground Storage Tank Management Program (USTMP) has received your consultant's letter, dated November 12, 2008, that forwarded a properly certified UST Closure Report. The report was prepared by Hart & Hickman, PC.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for the referenced release.**

However, further corrective action may be required if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by **December 15, 2008**. If you have any technical questions, please contact me at (404) 362-2589.

Sincerely,

Ronald J. Wallace  
Advanced Geologist  
Corrective Action Unit II
